### Business Summary

Diamond Offshore Drilling, Inc. principally is engaged in the contract drilling of offshore oil and gas wells. The Company is among the leaders in deep water drilling with a fleet of 45 offshore rigs. The fleet consists of 30 semisubmersibles, 14 jack-ups and one drillship. The Company's principal markets for its offshore contract drilling services are the Gulf of Mexico, Europe, including principally the U.K. sector of the North Sea, South America, Africa, and Australia/Southeast Asia. The Company provides offshore drilling services to a customer base that includes major and independent oil and gas companies and government-owned oil companies.

### Financial Summary

Diamond Offshore Drilling engages in the worldwide contract drilling of offshore oil and gas wells, and deep water drilling. For the six months ended 6/30/00, revenues fell 30% to \$311.1 million. Net income decreased 68% to \$33.1 million. Revenues reflect lower revenues from high specification floaters and other semisubmersibles. Earnings also reflect a lower gross margin due to increased contract drilling expenses for high specification floaters and jack-ups.
